***2. What are the security features of the authentic New Taiwan Dollar notes?***

Intaglio print

The main features are printed with a thick tactile layer of ink which can be felt with fingertips.

Watermark

When held up against the light, the watermark can be recognized by the gradual change of the colour from lighter to darker tints.

# NEW TAIWAN DOLLAR (NTW)

## Optical variable ink

When viewed from different angles, the color of the denomination figure changes.

## Window thread

The color of the window thread changes, when the banknote is tilted.

## Latent Image

When the banknote is tilted, the denomination number becomes visible.

## Optically variable device (OVD) stripe

When the note is tilted, OVD stripe has the effect of iridescent, multiple images.

## Metallic ink (NT\$2000 note)

When the note is titled, the metallic gloss appears on the two sides of the rocket.

When scanned and color-copied, the color of the sides of the rocket changes and the embossed figure "2000" becomes unclear.

## **4. What to do if you come across counterfeit currency?\***

- 1. Do not accept the currency.** Make sure you explore our guide before the exchange and remember the telltale signs of authentic currency.
- 2. If you suspect that the money is counterfeit, after the exchange, do not use it to make purchases or pass it onto another person.** You would be perpetrating a serious crime.
- 3. Note down the details** and all the information that you can recall about the person who gave you the money, the date and time of the event and the amount of currency.
- 4. Report** to the local police, monetary authority or a bank (see contact details below).
- 5. Forward these details with the username of the person, date, place of exchange and the amount exchanged to our community manager at [sandra@plainexchange.xyz](mailto:sandra@plainexchange.xyz)** so that we can identify the perpetrator.
